Subject: Internship 2019

Dear Sir/Madam,

I'm addressing this letter of intent in response to your announcement for the Internship vacancy that you have in your company.

I am currently a 3rd year student at the Faculty of Automation and Computer Science in Cluj-Napoca and I am passionate about computers, programming and technology in general. I think that in my academic years I have gained a lot of knowledge that I am looking forward to put into practice.

I am a dynamic person with good communication skills, responsible, determined, keen on learning, interested in professional development in this field. I am especially passionate about Java and I would like to learn more about web technologies. I would love to have the chance to work and grow professionally in your company, where I think I could learn more about the things that I am passionate about. I think this will also prove to be beneficial to your company because I am a determined and diligent worker.

If you consider that my motivation and qualification are appropriate for getting a place to practice in your company, I will be available for the next stages of the recruitment process.

Thank you for taking the time to consider my application.

Sincerely,

Raluca Serban
